Project Title	Dynamic Database Developer - Executive Resource and Performance Management Tracker
Project Summary	Create a user-friendly, comprehensive Access Database that can be used to run queries and generate reports on a range of data.
Country	United States
Agency	Department of State
DoS Office	HR/CSHRM
Post	N/A
Section	N/A
Number of Interns	1

Project Description

The Office of Civil Service Human Resource Management is looking for a highly motivated tech savvy intern to create an intuitive, user-friendly comprehensive Microsoft Access database that can track work , run queries and generate reports on a range of data. Additionally, we need a user guide which will identify all the features and provide instructions on how to use the database. This is an excellent opportunity for IT Students to sharpen their database development and writing skills, while also learning about executive resources and performance management.
